

WHEN TO USE
QUADRANT365

OCCUPATIONAL MEDICINE 365

A chemical leak of a product has just been discovered contaminating a major source of drinking water.

Local management contacts Quadrant365 Occupational and Environmental professionals to help assess risk and communicate with affected populations.

An employee/contractor/visitor is exposed to a chemical leak.

The onsite emergency response team consults with our professionals to assure appropriate treatment and referral decisions.

OSHA 365

Your site has been notified that OSHA or company auditors will be coming to conduct a health and safety audit.

Quadrant365 professionals can review and conduct audits for the following programs: hearing conservation, First Aid, medical surveillance and substance abuse.

An employee has sustained a work related injury/illness.

We can assist your health and safety team site management team in determining whether or not the incident should be recorded in the OSHA 300 log.

WHEN TO USE QUADRANT365

WORKERS COMP 365

An employee is injured on the job.

When someone is injured or becomes ill while working, a Quadrant365 professional is available to manage your workers' compensation claim. Our value to employers is to immediately connect with injured employees, at any time, to coordinate details and establish follow-up procedures, getting them back to work as soon as possible.

An employee trips and falls in the parking lot of your leased property.

Quadrant365 minimizes financial exposure for our clients by leading communication with all involved parties. Our case managers follow-up with our clients' insurance carriers to ensure cost of injury is allocated to all responsible parties, including leased property managers.
